

Health and Safety Awareness Training

Course Content

This one day Health and Safety Awareness training course covers the following topics:

- What is Health & Safety?
- Health & safety laws
- Who enforces these laws
- Employee Health & Safety responsibilities
- Employer Health & Safety responsibilities
- Health, Safety & Welfare in the workplace
- Risk Assessments
- Manual Handling
- COSHH
- Working at Height
- Display Screen Equipment (DSE)
- Lone working

This course is designed to ensure that your employees have a clear understanding of why health and safety is important, both for them and your organisation. No previous training is required.

Hand-outs will be provided, detailing the aspects discussed during the presentation and can be used as an open book for the purpose of the course exam. These notes can then be used post training for reference in the workplace.

Accreditation

A certificate of attendance is provided at the end of this course.

Please note that in tandem with our efforts to be more environmentally friendly and in line with our ISO14001 targets, the course attendance certificates will be presented in electronic format. Hard copies can be provided at an additional cost.

All our training courses can be supported by our award-winning online compliance management solution, HBE Manager, which means that you can safely store and access all your training certificates. Ask us for more details.

Types of courses

This is run as an open course and can also be tailored to suit your organisation's specific needs for on-site training.

Call us on 0845 6399673 or email sales@hberm.com to discuss your training requirements.
