

## JOB DESCRIPTION

---

<b>Job Title:</b>	Trainee Asbestos Surveyor
<b>Reporting to:</b>	Field Operations Manager
<b>Location:</b>	Northern Ireland based

### **The Position**

This is an entry level position, where full training will be provided, with excellent potential for the right candidate to progress into a great career within the asbestos industry.

The position will initially be temporary for a period of up to 3 months, with a possibility of being made permanent.

The main responsibilities of this position include:

- Working on site to assist our qualified surveyors to carry out asbestos surveys; and
- Assisting in reporting and recording all the work carried out, using metering log books, propriety maintenance records, or spreadsheets, completing monthly reports for both the company and client.

### **The Person**

Successful applicants must have:

#### Essential

- 6 months' experience in a construction related role
- A good level of IT Skills
- Full clean driving licence
- The ability to work independently

#### Desirable

- Access to own vehicle
- Preference will be given to those candidates who have previous experience in a building surveyor role
- Valid CSR Card/Manual Handling cert/Working at Heights cert
